TECHNOLOGY TRAINING EXERCISE - HOUSTON- OCT 25-27 MILITARY AND PUBLIC SAFETY BOMB TECHNICIAN TRAINING

The three days of training will involve active public safety and military bomb technicians interacting with Industries current and emerging technologies in a task or scenario based exercise. This will give Industry the opportunity to receive feedback from actual Bomb Technicians while assisting in providing great hands on training in practical environments.

USBTA FEDERAL & DOD PARTNERS WILL BE PARTICIPATING AND INVITED TO OBSERVE AND ENGAGE INDUSTRY

Naval Surface Warfare Center (NSWC) Navy Battle Lab/Joint EOD

Office for Bombing Prevention (OBP)

DHS/S&T & FBI

Air Force Civil Engineering Center (AFCEC)

Congressional and Government Representatives will be invited and welcomed to attend the TTE. They will be introduced to the USBTA Industry Partners and see the tools and equipment used in the Bomb Technician Community.

**[VISIT HTTPS://USBTA.US/EVENTS](https://usbta.us/events)
AND REGISTER TO HOST A TRAINING LANE.**

Register by September 15- Updated flyers will be sent directly to all Military EOD Shops and Public Safety Bomb Squad Commanders and will include a logo from the registered industry partners with a training lane description.
